An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. John Fitzgerald on December 20, 2004.

The application has been amended as follows:

In the specification, the first paragraph on page one has been replaced with the following: -- This application is a divisional application of U.S. Serial No. 09/563,946 filed May 2, 2000, now US Patent 6673098, which is a continuation-in-part of U.S. Serial No. 09/138,830, filed August 24, 1998, Now US Patent 6620188, which claimed priority of 60/185,561, February 28, 2000. --

In claim 36, line 3, the words – relatively stiff—have been added before the word structural.

In claim 36, line 4, the word “patter” has been changed to – pattern --.

The first change was made to clarify that the two members have different rigidities. The second claim corrects an obvious typographical error.

In claim 37, line 1, the dependency has been changed from “22” to – 36 --.

Claim 38 has been canceled, as it is duplicative of claim 36.

In claim 39, line 1, the dependency has been changed from “22” to – 36 --.

In claim 42, line 1, the dependency has been changed from “23” to – 36 --.

Art Unit: 3736

Claims 37-39 and 42 have been amended to change the dependency from 22, which was canceled to 36.

The following is an examiner's statement of reasons for allowance: Claims 36-43 define over the art in that none of the art shows a cassette having a heat exchanger formed by sealing two members, one compliant and one relatively stiff, where the two members are sealed in a pattern to form a flow channel and a bulkhead containing a reservoir, a cardioid vane pump head, a fluid level detector, and a pressure dampener in communication with a pump outlet, as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Robert L. Nasser whose telephone number is (571) 272-4731. The examiner can normally be reached on Mon-Fri, variable hours.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Max Hindenburg can be reached on (571) 272-4726. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
